

WORKERS' COMPENSATION GROUP RATING PROGRAM

Your Best Solution To Rising Costs
August 2008

The Construction Employers Association/Construction Industry Service Program sponsors a Group Rating Program, which has historically provided premium discounts approaching the maximum allowed by the Ohio Bureau of Workers' Compensation.

Our group rating partner, GatesMcDonald, has assisted CEA/CISP participants in saving nearly \$6 million dollars in Workers' Compensation premiums. Our partnership with the Ohio Farm Bureau Federation has enabled CEA/CISP participants to share savings with a well-known and stable group rating program.

BWC programs such as the Drug Free Workplace Program and Premium Discount Program, as well as effective safety and claims management protocols, will offer long-term premium relief. However, the best opportunity for dramatic premium reduction is joining a Group Rating Program with attractive premium discounts. The CEA/CISP is proud to offer you the ability to compare our program to your current Workers' Compensation rating option.

To be considered for the Construction Employers Association / Construction Industry Service Program Group Rating Program, simply complete and fax or mail the enclosed evaluation documents (2 pages). Evaluation is free and you will be enrolled in a Group Rating Program only if you agree to do so.

Don't miss this opportunity to keep your Workers' Compensation expenses as low as possible! If you have any questions concerning the CEA/CISP Group Rating Program, contact David McKibben at GatesMcDonald at 800-582-8572.
