Event:
Construction Safety Day

When:
February 14, 2023

Where:
Holiday Inn Rockside Rd. 6001
Rockside Rd. Independence, OH
44131

The Cleveland Safety Forum has teamed up the Cleveland Area OSHA office to provide northeast Ohio with our **eleventh** annual Construction Safety Day. This Safety Day will host a series of interactive panel discussions, educational seminars in which you will receive practical tips and strategies to help comply with today's regulations, and, as always, you will have the chance to network and share information with your colleagues. Participants will include 350 individuals comprised of company executives, regulatory officials, project managers, superintendents, and trades people. It proves to be an exciting and educational day.

The Forum is currently looking for vendors wishing to purchase a table to display their products and services. Currently we only have 20 openings available. The cost per table is **\$250** dollars and is reserved on a first come first serve basis. If you have any interest please do not hesitate spaces sold out last year. Time has been allotted for all attendees to speak with the vendors. This is a great opportunity for vendors to capture a large, diverse audience in one setting.

The Safety Day will be held on **February 14th, 2023** at the Holiday Inn Rockside Road. The day will begin at **7 am and close at 3:30 pm**. Lunch will be provided. Please contact Bill Hocevar at Bhocevar@tglcc.com or Kent Crytzer at kcrytzer@ceacisp.org to reserve your spot as a vendor for this event. Please make checks payable to the Construction Safety Council of Northeast Ohio. Please send checks to 950 Keynote Circle, Suite 10 Cleveland Oh, 43312.
