CEA Safety Director

Event: Construction Safety Day

When:
February 11, 2020

Where:
Lacentre
25777 Detroit Road
Westlake, OH 44145

The Cleveland Safety Forum has teamed up the Cleveland Area OSHA office to provide northeast Ohio with our **eighth** annual Construction Safety Day. This Safety Day will host a series of interactive panel discussions, educational seminars in which you will receive practical tips and strategies to help comply with today's regulations, and, as always, you will have the chance to network and share information with your colleagues. Participants will include 250 individuals comprised of company executives, regulatory officials, project managers, superintendents, and trades people. It proves to be an exciting and educational day. The Safety Day will be held in **February 11, 2020** at the Lacentre in West Lake. The day will begin at **7 am and close at 3:30 pm**. Breakfast and lunch will be provided.

The forum is looking for lunch sponsors for this grand event. This year our focus will be centered on the trades. As a lunch sponsor of this event, your organization would be provided an opportunity to speak to participants on the main stage during lunch. In addition to being named as a lunch sponsor you will also be given a vendor table to display products and services.

The cost of a lunch sponsorship is **\$1000**. Please contact Bill Hocevar at Bhocevar@tgicc.com or Kent Crytzer at kcrytzer@ceacisp.org to reserve your spot as a sponsor for this event. Please make checks payable to the Construction Safety Council of Northeast Ohio.

Hurry before this opportunity slips away!

The Cleveland Safety Forum is excited about this great opportunity to educate, network, and learn. Don't miss out on this once a year event that has proven to be one the best construction seminars in years!
