

Matt Baker | Virtual Construction Coordinator

Mr. Baker is the Virtual Construction Coordinator for P. J. Dick Incorporated, a Pittsburgh-based, Mid-Atlantic Regional general contractor and construction manager. As Virtual Construction Coordinator, Mr. Baker is responsible for the company's virtual construction initiatives, which include the analysis and implementation of BIM/Virtual Construction in estimating, field operations, subcontractor coordination, scheduling, marketing, and contracting.

Mr. Baker has over ten years of experience in the construction industry, including work in a variety of markets such as correctional, military, educational, hotel, multi-use, health care and public assembly. Starting from a co-operative engineer, Mr. Baker has worked his way up the ladder in the roles of project engineer, project superintendent and project manager. He has focused his concentration on quality assurance/quality control engineering and is particularly skilled in construction-based scheduling and project management computer programs, job-site coordination and subcontractor and owner relations. Several projects that Mr. Baker was involved with have earned recognition, such as: the "National Masonry Award for Craftsmanship" in 2002 by the International Union of Bricklayers and Allied Craftworkers and the "Honorable Mention Award" in the category of New Construction at the 5th Annual Washington Contractor Awards hosted by the DC Chapter of the AGC.

Mr. Baker graduated from the University of Akron with a Bachelor of Science in Civil Engineering and an Associate of Science in Land Surveying. He is a member of the ASCE's West Virginia Section and has performed community work with Habitat for Humanity and Rebuilding Together Alexandria. Currently, Mr. Baker resides in Harpers Ferry, West Virginia.
