

Dan Gess, GA/C

Project Manager

Responsibilities

Management of all project activities with direct report to the Owner. Duties consist of cost management, schedule management, team performance, quality management, document management, subcontractor/supplier negotiation, and contract preparation.

Personal Profile

Dan began his career in the construction industry doing field layout and survey work for a Grand Rapids, Michigan construction company. Upon graduation from Auburn University, he was promoted to project engineer. While with the company, he performed a variety of roles, including Assistant Project Manager, Project Manager and Estimator, on various projects. Dan joined Donley's in 2002 as a Project Engineer. He was later promoted to Assistant Project Manager, and in 2005 was promoted to Project Manager.
