

Greg Consolo, LEED AP BD+C

Vice President, Construction Management

Responsibilities

As vice president of the construction management group, Greg is responsible for the overall operations of the construction management division in Northeast Ohio. Duties include oversight of preconstruction estimating, procurement, contract negotiations and administration, and field operations. He serves as the Project Executive on key construction management projects and serves as a management representative to active clients in support of Donley's project staff.

Personal Profile

Upon graduation from Cleveland State University, Greg began his career as a Project Engineer with a national construction firm. Throughout his 26-year tenure at the firm he was promoted to roles including Senior Estimating Engineer, Project Manager, Manager of Preconstruction Services, and Project Executive. From these various roles, he gained invaluable insight into every facet of both preconstruction and construction services. Greg joined Donley's in 2006 as Director of Preconstruction and was promoted to Vice President of Preconstruction Services in 2008. During his tenure, he led the company's preconstruction group for both Northeast Ohio and Mid-Atlantic regions, increasing annual CM work from \$80 million to \$300 million. In 2012, he was promoted to Vice President, Construction Management.
