Jack Rogers
PROJECT EXECUTIVE

TURNER CONSTRUCTION COMPANY

Jack Rogers is currently responsible for the Management of the KeyBank IBS Expansion and Modernization Program Nationwide as Program Director for Turner. This program involves leading the Construction Management Team for all new branch construction and branch renovations across the KeyBank footprint from Maine to Washington and Oregon.

In this role, Jack works in the KeyBank Real Estate Solutions Office in Cleveland, OH. He manages Construction teams in Turner offices located in Albany, Cleveland, Denver and Seattle in this program. At any given time, there are 40 to 60 projects underway within this footprint. Leadership abilities are employed on a daily basis in this program that spans the Continental U.S. and three time zones.

Similar National Programs Managed by Jack include three Circuit City Expansion Programs and a National Program with Boeing working for the TSA on the Baggage Screening Program. This program involved the installation of baggage screening equipment in every commercial airport in the United States and its territories.
